

To support our growth, the Joris Ide group is looking for a

BUSINESS ANALYST SAP MATERIALS & WAREHOUSE MANAGEMENT (M/F)

Main responsibilities:

You are a key person in implementing and supporting SAP HANA ECC 6.0 for Joris Ide Group in pan-European context. Your focus as a business analyst is to seamlessly integrate supply chain flows (purchasing, procurement, inventory, ...), making use of combined functionalities in ERP, Fiori on SAP Cloud Platform, Process Orchestration (PI) and Manufacturing Intelligence and Integration.

- Within SAP ERP, analyse both from technical and business perspective. Building new flows as well as optimizing existing ones:
 - Supply Chain Processes: purchasing, procurement, Inventory, stock, ...
Applications involved are : supply chain modules ERP, OTAS, Fiori and MII
 - Incoming & outgoing supply chain messages (Desadv, QAL), and IDOC messages (MII, WM)
 - Shipments & Delivery process – shipment, RF, Materials & Warehouse Management
 - Data Archiving, Document Management on OTAS server
 - Master Data: Variant Configuration & Characteristics maintenance
- Closely work together with business & process owners
- Translate business requirements into functional and or technical specifications for SAP implementation projects for applicable areas (HANA ERP R/3, MII, PI, BW, ...)
- Key role in different project stages
 - Draft technical specification documents
 - Actively participate in blueprint, fit-gap, implementation, configuration, testing, acceptance, end-user support included.
- Integrate HANA ERP R/3, Fiori (html5, jQuery), MII, PI and document management system
- Draft proposals to solve bottle-necks and or to optimize and enhance overall business performance

Profile:

You are part of the IT team, applications department headed by ICT manager

- Have a master degree in IT and or Business
- Are interested in supply chain processes and manufacturing operations
- Have strongly developed analytical skills
- Have a solution oriented mind-set. Are a team player with well-developed communication skills
- Can convince and involve people

We're offering:

- Work in international Group: Joris Ide – Kingspan in Zwevezele – Belgium, near coast in Bruges area
- Work in a challenging business environment with yearly double digit growth
- Work with an innovative IT landscape, with many first adopter technologies and or applications; often referenced by SAP
- Work in dynamic, social and entrepreneurial environment
