

To support our growth, the Joris Ide group is looking for a

## MAINTENANCE SUPERVISOR ZWEVEZELE (M/F)

### Main responsibilities:

Reporting to the Technical Director Joris Ide group. Responsible for the planning and supervision of the preventive and breakdown maintenance interventions. Assure the expected timing and quality of the technical solutions.

#### Specific responsibilities on results and quality

- report daily in the engineering/production review meeting on the maintenance interventions
- implement actions to improve output, scrap, utilization, uptime and speed
- responsible for the housekeeping in the maintenance workshops and maintenance storage areas

#### Specific administrative responsibilities

- archive historical data on maintenance interventions
- manage external contractor companies for maintenance interventions
- manage spare part purchase and storage level
- use tool for preventive maintenance

#### Specific HR responsibilities

- minimise maintenance employee absence
- deliver regular briefings to the maintenance employees; feedback on quality, safety
- train, support and develop the maintenance operators
- responsible for safety behaviour and safety results for the maintenance workers and contractors working under his supervision

## Profile:

You have a technical degree in industrial engineering, engineering, control engineering or mechatronics. The focus of the job lies in the use of technical knowledge and people skills to increase the uptime of the machines.

- you have at least a first work experience in an industrial production environment, preferably as a maintenance planner or responsible person
- you have the necessary social skills, leadership qualities and assertiveness to manage people
- you have a high degree of independence and you have a great sense of responsibility
- a strong drive and passion for technology and methodology, coupled with stress resistance and a no-nonsense mentality are typical aspects of your personality

## We're offering:

We offer an exciting and varied job with a competitive salary in a dynamic company that is in full expansion.
